Thank you for accepting the OTN License Agreement; you may now download this software.

Download Oracle JDeveloper Studio Edition for Windows (1185 MB)

The Studio Edition for Windows is the most popular download of Oracle JDeveloper. It contains all the features of the product - including ADF, J2EE, UML, Database, Java, and XML. This download includes JDK 6 and is supported on Windows Vista, XP, 2003 and 2000.

Install Type	Studio Edition	Java Edition		
	This download is the complete version	This download contains only the core		
	of JDeveloper with all the features.	Java and XML features, it doesn't contain		
		J2EE, ADF, UML and Database features.		
	This is the recommended Download	Fewer features means smaller		
		download and improved performance.		
Windows Install				
For Windows XP,	idevstudio11113install.exe (1185			
2003, 2000	MB)			
(includes JDK 6)				
Linux Install	真 jdevstudio11113install.bin (1124			
(includes JDK 6)	MB)			
Base Install				
For all the platforms	idevstudio11113install.jar (1514	📮 jdevjava1113.zip (72 MB)		
(without JDK 6)	MB)	•		
(mateuropico)				
Make sure to use the	Help->check-for-update menu in JDevel	oper to download extensions to		
JDeveloper including JUnit support, version management tools integration and many others .				
For the install guide and release notes see JDeveloper's Documentation page.				
Oracle JDeveloper requires JDK 6. The Windows and Linux complete installs include the required JDK.				
For the other installs make sure your machine has a copy of JDK 6.				
One the ID we have a large set of the state of the set of the set				
See the <u>JDeveloper Homepage</u> for tutorials, demos, how-to's and more.				
Other JDeveloper Versions
